

Molecular Partners to Present at the 35th Annual J.P. Morgan Healthcare Conference

January 4, 2017

Zurich-Schlieren, January 04, 2017. Molecular Partners AG (SIX: MOLN), a clinical-stage biopharmaceutical company developing a new class of drugs known as DARPin® therapies, today announced that it will present at the 35th Annual J.P. Morgan Healthcare Conference on Wednesday, January 11, 2017 at 8:00 AM Pacific Standard Time (11:00 AM Eastern Time; 5:00 PM CET). The presentation, followed by a Q&A session, will be hosted by Dr. Patrick Amstutz, CEO of Molecular Partners.

The presentation will be webcast live and can be accessed on the day via this [link](#). A copy of the presentation handout as well as a replay of the webcast will be made available on the company's website www.molecularpartners.com under the [Investors](#) section. The replay will be available for 30 days following the presentation.

About Molecular Partners AG

Molecular Partners AG is a clinical-stage biopharmaceutical company that is developing a new class of therapies known as DARPin® therapies. DARPin® therapies are potent, specific, and versatile small proteins, which have the potential to offer benefits over conventional monoclonal antibodies or other currently available protein therapeutics. The DARPin® technology has the potential to offer a multi-specific approach to treatment, which enables the DARPin® therapies to target multiple pathways, or multiple epitopes on a single target to achieve substantial patient benefit. DARPin® therapies have the potential to advance modern medicine and significantly improve the treatment of serious diseases, including cancer and sight-threatening disorders. DARPin® is a registered trademark owned by Molecular Partners AG.

Molecular Partners has four compounds in various stages of clinical and preclinical development and several more in the research stage, with a current focus on ophthalmology and oncology. The company establishes research and development partnerships with leading pharmaceutical companies and is backed by established biotech investors.
