

Molecular Partners Nominates Agnete Fredriksen for Election to its Board of Directors

March 11, 2021

- **Acknowledged innovation leader with deep scientific and business expertise in immunotherapy, oncology and infectious diseases**

Zurich-Schlieren, Switzerland, March 11, 2021. [Molecular Partners AG](#) (SIX: MOLN), a clinical-stage biotech company that is developing a new class of custom-built protein drugs known as DARPin® therapeutics, today announced the nomination of Agnete Fredriksen, Ph.D., to the Company's Board of Directors proposed for election at the 2021 Annual General Meeting on April 21, 2021.

"We are pleased to propose Agnete for election to our Board of Directors during a time of growth and development for Molecular Partners, as we lay the foundations for an infectious diseases portfolio and new technologies for next-generation cancer immunotherapies to fruition," said Bill Burns, chairman of the Molecular Partners Board of Directors. "We look forward to benefiting from her breadth of expertise across our deepening portfolio as we continue to expand the capabilities of our DARPin® platform."

Agnete Fredriksen, Ph.D., is a co-founder, president and chief scientific officer of Vaccibody AS, a clinical-stage biopharmaceutical company dedicated to the discovery and development of novel immunotherapies for cancer and infectious diseases. With prior roles at Affitech AS and Medinnova AS, Agnete's focus is on developing vaccines from idea to clinical development. She is the author of numerous scientific papers in the field of immunology, immunotherapy and vaccines, and has been awarded several patents in the field of immunotherapy. She holds an MSc and a Ph.D. from the Institute of Immunology, Rikshospitalet Medical Center in Oslo, Norway.

About Molecular Partners AG

Molecular Partners AG is a clinical-stage biotech company developing DARPin® therapeutics, a new class of custom-built protein drugs designed to address challenges current modalities cannot. The Company has formed partnerships with leading pharmaceutical companies to advance DARPin® therapeutics in the areas of ophthalmology, oncology and infectious disease, and has compounds in various stages of clinical and preclinical development across multiple therapeutic areas.

Forward-looking statements

This press release may contain certain forward-looking statements relating to the company and its business. Although the company believes its expectations are based on reasonable assumptions, all statements other than statements of historical fact included in this press release about future events are subject to (i) change without notice and (ii) factors beyond the company's control. These statements may include, without limitation, any statements preceded by, followed by, or including words such as "target," "believe," "expect," "aim," "intend," "may," "anticipate," "estimate," "plan," "project," "will," "can have," "likely," "should," "would," "could", and other words and terms of similar meaning or the negative thereof. Forward-looking statements involve certain risks, uncertainties and other factors which could cause the actual results, financial condition, performance or achievements of the company to be materially different from those expressed or implied by such statements. Readers should therefore not place undue reliance on these statements, particularly not in connection with any contract or investment decision. Except as required by law, the company assumes no obligation to update any such forward-looking statements, or to update the reasons actual results could differ materially from those anticipated in the forward-looking statements, even if new information becomes available in the future.
