"We are happy to share and celebrate the great advancements our team has achieved in the last year, and even more so in the last few weeks, which have been especially busy," said Patrick Amstutz, CEO of Molecular Partners. "Even as COVID-19 continues to occupy our lives, and remains a focus for the company, our team still managed to advance our internal oncology programs and initiate a new DARPin-RLT program in collaboration with Novartis. We will discuss today the progress made, the strategy moving forward, and the upcoming milestones in our oncology pipeline."

Following the prepared remarks both management and guest speakers will be available for a question-and-answer session. A copy of the presentation and a link to the live webcast of the Oncology Day will be available in the Investors section of the Company's website at www.molecularpartners.com. An archived webcast recording of the event will be available on the website following the presentation.
